

# Notification of Water Tank Maintenance

Newport Utilities (NU) will be conducting scheduled maintenance on the Lark Water Tank located off Herbwood Way. NU plans on removing the tank from service on **Thursday, March 20<sup>th</sup>** and returning it to service on **Monday March 27<sup>th</sup>**.

## **Areas affected include:**

- Lark Road
- Herbwood Way
- James Branch Way

Water tank maintenance is necessary to ensure that the tank and its contents remain clean and safe. Although water will remain safe during this process, customers may encounter the following conditions during the maintenance period:

- A temporary drop in water pressure to your residence or place of business
- Rusty ,brown or cloudy water (These conditions will subside after the tank is returned to service)
- Avoid doing laundry, if water discoloration is present

If water discoloration becomes an issue during this period:

- Open a cold-water facet and let water flow until clear. ( When available use an outside spigot)

**Please contact NU Customer Service if you have questions:**

(423) 625-2800
