

Notification of Water Main Flushing

Newport Utilities (NU) will be conducting water main flushing during the week of 3-11-25 at the following locations:

289 Shepard Drive	End Emerald Springs Way
310 Shepard Drive	End Ivy Way
361 Jasmine Drive	End Lakeshore Way
Wildflower Way	Lakeshore Way
188 Rays Chapel Road	Hwy 25E
178 Hilltop Drive	115 Volunteer Way
231 Lehigh Drive	Summit Circle
335 Odell Road	Variety Way
580 Hale Brook Road	523 Susong Street
967 Hwy 25 E Campground	Viewmont Circle
Light House Park South End	Woodstone Drive
Light House Park North End	Terrace Way
End Forest Lake Way	292 Seehorn Drive
End Emerald Waters Road	Long Avenue
End Thurman Road	583 Paw Paw Way
End Aqua Vista Way	592 Paw Paw Way

Water main flushing is a necessary function for NU's Waterline Maintenance Program, which maintains the system's overall water quality.

Although water will remain safe during this process, customers may encounter the following conditions during flushing:

- A temporary drop in water pressure to your residence or place of business
- Rusty, brown or cloudy water (*These conditions will subside after flushing is complete*).

****Avoid doing laundry during flushing operations to prevent staining.**

After flushing operation is complete:

- Open a cold-water facet and let water flow until clear. (When available, use an outside spigot.)
